As we all know that Labor Education will be included in the education of middle schools and primary schools in China. I think it's important. We can learn some life skills and develop good habits. Both will help us a lot in the future.

As for how to run the course in our school, I have some ideas. The school can offer classes to teach us how to do the cleaning and grow plants. What's more, the school can set up some clubs, such as cooking club and paper-cutting club. The school can also hold competitions to see who is the best in making cakes. Such activities will make our school life more colorful and meaningful.

I am looking forward to taking the course in the new term. I am sure I can do well in it.
