#### 范文

In 2022, many unusual things happened. For me, there are three unforgettable things.

First, we had online classes at home because of COVID-19. It was boring. Next, I had to take a nucleic acid test every day. Although I had to wait for a long time, I could feel the love from the doctors. The last one is to watch the Beijing Winter Olympic games. It was exciting.

In 2023, I hope everything goes well. First, I am going to exercise more. If I do, I'll be healthier. Next, I'm going to study harder. If I do, I'll get better grades. At last, I want to be more outgoing. If I do, I can make more friends.
