How do you feel about your looks? Is it important to have a beautiful face? Are there other things that can make a person special? The way you look is special. Do you know what I mean by that? We all look a little different. Some of us are tall. Some of us are fat. The point is, all of us have our own look—our own face.

Sometimes, we might feel bad about looking different. We might feel like we look ugly or strange. But our differences are what make us special.

I recently watched a speech by a man named Robert Hoge. He was born with a strange-looking face. His mother always worried that he would face many difficulties in life. But what Hoge did changed his mother's mind little by little. Strangers would stare at him or even make fun of him. But he didn't care at all. He decided to accept his face and feel confident(自信的) in himself. He has made a decision to live an amazing life.

It's hard when you feel like you don't look "normal" or "perfect". But the truth is, no one is perfect. The important thing to remember is that you are special, no matter what you look like.

An unforgettable experience

We always hope our life will be easier, but unfortunately, the reality isn't always as we expected. Difficulties are what we can never escape from.

During the first term of 8th grade, my math and physics grades dropped immediately without a warning. I was so hopeless and lack of self-confidence. Luckily, my parents and friends held out their helping hands. They encouraged me and suggested me to do more exercises in those two subjects. I didn't want to let them down and made every effort to study hard. I chose to face my difficulty instead of running away. As a result, I made great progress and got good grades again.

In conclusion, having responsible parents and warm-hearted friends is important, but the attitudes to face the challenges are what matters more.
