How Chinese Students Do Labor Work

These days, labor education is getting more and more important in both primary and middle schools in China. I am a 12-year-old student.

I come from Dazhou. I am tall and thin. I love labor.

I usually do chores at home. I always make the bed myself. I often sweep the floor, do the dishes, and clean the room. On weekends, I often help my mother cook dinner. I help clean the classroom every day at school. Doing labor work can relax ourselves and keep us healthy. It can

improve our independence. It also makes our parents happy. What's more, we'll feel proud of ourselves.

I think you can do some simple housework for your parents. You should do your part of the work at school.
