Dear Donna,

Help! I'm a 15-year-old middle school student in New York. In eight months, I'm going to take an entrance exam. To prepare for it, I'm studying six hours a day. I want to do well, but I'm really worried these days and I can't sleep. What can I do?

Yours,

Mary

Dear Mary,

Many students around the world have the same problems as you. Here is some advice to help you deal with the stress. Good luck!

Today more and more children wear glasses before going to middle school, because they spend too much time watching TV or playing computer games without a rest. We must do something to protect(保护) our eyes because they are important to us.

Love our eyes. Every day, when we open our eyes, we can see our parents and friends, beautiful flowers and green trees. Without them, there is only darkness(黑暗). It is like a house without any light(灯). How important our eyes are!

Remember to rest our eyes. When we use the computer for about an hour or more, it is time to stop to have a 30—minute rest. At school, we need to do eye exercises. Closing our eyes for a rest is useful, as well as looking at green plants. In these ways, we will feel comfortable with our eyes.

Computers are very important to modern life. Many people think that in the future computers will be used a lot in everyday life. Maybe we won't have to go shopping because we will be able to buy most things on the Internet. There will be fewer books because we will be able to get all texts from computers. The Internet will be used to play games and see films. Most telephone calls will be made by computers, too.

Some people are glad about these new ways of shopping and communicating(交流). Others do not think that computers will replace(代替) our old ways.

Let's take books for example. Some people think that one day we won't read books made of paper. Instead, we will buy and read books by using computers. We will read texts on small pocket computers. The computers will keep many different books in them at the same time. We won't need to turn lots of pages and paper will be saved. Computerized books(电子图书) will be used more and more.

Is Internet shopping such a pleasure as going to the shop? Many people say it is not. It is pleasant (令人愉快的) to go into shops and look at things you want to buy. It is also impossible (不可能的) for many people to read long novels(小说) on our computers. Because reading paper books will perhaps be more friendly. Maybe computers won't change these two habits.
