六、The chance made me confident

As we all know, chances are priceless. I once caught a chance to make myself confident.

Two years ago, my spoken English was quite poor and I wanted to improve it very much. One day, I heard our school would choose several students to study in a training center. So I went to the office and told our headteacher that how much I wanted to get the chance. To my great excitement, he agreed finally. Thanks to the chance, I have made great progress in my spoken English.

Now I'm more confident when speaking English. The experience also reminds me to value chances in my life.
