My Learning Habits Online

After the Spring Festival, in 2020, we had to study at home on computers. There is a famous saying, “Good habits lead to good endings.” It shows the importance of habits. Learning habits can help us gain great learning results. There were some ways I did during the outbreak of COVID-19.

First, I made a study plan. In the morning, I read English words or texts, or Chinese texts. Every day, I kept diaries about my learning.

Second, in class, I listened to the teachers carefully. When the teacher taught us some main points, I wrote them down on my notebook. After class, I read them again. This way, I can remember them more correctly.
