Wash your hands. It is a good way to keep healthy. You should wash hands before eating. You should use clean running water to wash them. Remember to rub them for at least twenty seconds.

Drink water. Some young people love to drink coffee. But I think you should drink water instead of coffee. There are many kinds of drinks, but water is the healthiest. You can carry a water bottle in your backpack and fill it with water.

Have a good sleep. Having a good sleep can keep your brains young and help it work faster. You can also remember information quickly if you sleep well. Of course, you can work well with a good sleep. So don't sleep too late, it's not a good habit.
